

**Invitation to the exclusive live demonstration of the SAWBOX October 23, 2025
Springer Maschinenfabrik, Friesach (Carinthia)**

Experience the future of sawmilling **compact, fully automated, and highly efficient**

Dear Sir or Madam, dear partners in the forestry and wood industries,
We warmly invite you to the exclusive live demonstration of the new SAWBOX – a groundbreaking, fully automated sawmill system that is setting new standards in wood processing. The SAWBOX is currently in the final stages of assembly at Springer Maschinenfabrik in Friesach and will be presented live on October 23.

Why the SAWBOX?

The SAWBOX was developed for a new generation of wood processing enterprises:

- It requires only a fraction of the space of conventional sawmills – while delivering equivalent performance.
- Full automation from cutting to stacking – with minimal personnel requirements.
- Ideal for SMEs, cooperatives, small sawmills, and regional value chains.
- Extremely short payback periods due to low investment and operating costs.
- Strong arguments for sustainability, efficiency, and circular economy practices.

Program – October 23, 2025

Take this opportunity to meet industry colleagues from Austria, Slovenia, and Italy. This international gathering offers an excellent chance to build new business relationships and strengthen existing partnerships.

09:30 AM Welcome by Springer, TINAA & Cluster Partners
10:15 AM Live demonstration of the SAWBOX & technical insights
11:45 AM Presentation of the business model & ROI calculations
12:30 PM Networking & Lunch break – kindly hosted by SPRINGER

Participation & Registration

We are pleased about your interest and kindly ask you to confirm your participation by **October 7, 2025**: office@tinaa.at – please indicate the number of participants.

Note: The number of participants is limited. The event will be held in English.

You can find a short introduction video about the SAWBOX here:
